

Chemistry Alumni Fund and Appreciation Dinner

Raising funds to support outstanding bursary students

Inspired and initiated by several senior alumni from the Department of Chemistry, a fundraising campaign to establish the Chemistry Alumni Fund was launched in November 2015 in conjunction with SG50 celebrations. The Fund seeks to help and encourage outstanding bursary students.

The campaign received overwhelming support from alumni and friends of the department and culminated in a Chemistry Appreciation Dinner held on 27 May at NUSS Guild House. The dinner

was organised as a gesture of appreciation to thank donors for their generosity and their participation in the fundraising drive.

A total of 12 sub-named Study Awards were set up, together with \$360,000 in gifts, to establish this endowed Fund. The Study Awards will be offered in the next academic year.

Prof Richard WONG, Head of the Chemistry Department, with Chemistry alumni at the appreciation dinner
