

CONTENTS

(continued from front cover)

A new species of the unicornfish genus *Naso* (Teleostei: Acanthuridae) from Taiwan, with comments on its phylogenetic relationship. **Hsuan-Ching Ho, Kang-Ning Shen and Chih-Wei Chang** 205

A new *Ingerana* (Anura, Dic平glossidae) with no external tympanum from Borneo, Indonesia. **Djoko T. Iskandar, David P. Bickford and Umilaela Arifin** 213

A new frog (Anura, Dic平glossidae), related to *Occidozyga semipalmata* Smith, 1927 from the eastern Peninsula of Sulawesi, Indonesia. **Djoko T. Iskandar, Umilaela Arifin and Angga Rachmansah** 219

The nomenclature and systematics of some australasian homalopsid snakes (Squamata: Serpentes: Homalopsidae). **John C. Murphy** 229

Phylogenetic relationships of Malayan and Malagasy pygmy shrews of the genus *Suncus* (Soricomorpha: Soricidae) inferred from mitochondrial cytochrome *B* gene sequences. **Hasmahzaiti Omar, Eleanor A. S. Adamson, Subha Bhassu, Steven M. Goodman, Voahangy Soarimalala, Rosli Hashim and Manuel Ruedi** 237

CONSERVATION AND ECOLOGY

Feeding biology and symbiotic relationships of the corallimorpharian *Paracorynactis hoplites* (Anthozoa: Hexacorallia). **Arthur R. Bos, Benjamin Mueller and Girley S. Gumanao** 245

Diet and feeding in the sea star *Astropecten indicus* (Döderlein, 1888). **K. S. Loh and Peter A. Todd** 251

Evidence that salt water may not be a barrier to the dispersal of Asian freshwater crabs (Decapoda: Brachyura: Gecarcinucidae and Potamidae). **Lara J. Esser and Neil Cumberlidge** 259

Comparative biology of cave-dwelling spitting spiders (Araneae: Scytodidae): Parental care, cooperative prey-capture, cannibalism, natal dispersal and reproductive behaviour. **Laura-Marie Y. L. Yap, Y. Norma-Rashid, Fengxiang Liu, Jie Liu and Daiqin Li** 269

Phytophagous scarabaeid diversity in swidden cultivation landscapes in Sarawak, Malaysia. **Keiko Kishimoto-yamada, Takao Itioka, Michiko Nakagawa, Kuniyasu Momose and Tohru Nakashizuka** 285

Bird diversity differs between industrial tree plantations on Borneo: Implications for conservation planning. **Frederick H. Sheldon and Alison R. Styring** 295

Habitat preferences and activity patterns of the larger mammal community in Phnom Prich Wildlife Sanctuary, Cambodia. **Thomas N. E. Gray and Channa Phan** 311

Proboscis monkeys (*Nasalis larvatus* (Wurmb, 1787)) have unusually high-pitched tonal vocalisations. **Srivathsan, Amrita and Rudolf Meier** 319

Vertebrate carnivores and predation in the Oriental (Indomalayan) region. **Richard T. Corlett** 325

THE RAFFLES BULLETIN OF ZOOLOGY 2011

VOL. 59(2)

The Raffles Bulletin of Zoology

An International Journal of Southeast Asian Zoology

CONTENTS

Editorial i

TAXONOMY AND SYSTEMATICS

New species of the genus *Sinularia* (Octocorallia: Alcyonacea) from Singapore, with notes on the occurrence of other species of the genus. **Y. Benayahu and L. P. van Ofwegen** 117

Relationships of the heteroncholeidids (*Heteroncholeidus*, *Eutriangularatus* and *Triangularatus*) as inferred from ribosomal DNA nucleotide sequence data. **W. B. Tan, M. Y. Fong and L. H. S. Lim** 127

Neotype designation and re-description of the vanishing tree snail, *Amphidromus (Amphidromus) mundus* (Pfeiffer, 1853) (Pulmonata: Camaenidae). **Chirasak Sutcharit and Somsak Panha** 139

The taxonomy and phylogenetic relationships of species in the *Bactrocera musae* complex of fruit flies (Diptera: Tephritidae: Dacinae) in Papua New Guinea. **R. A. I Drew, Jing Ma, S. Smith and J. M. Hughes** 145

A review of the genus *Metaneoeus* from the Philippines (Coleoptera: Lycidae). **Martin Weissenstein and Ladislav Bocak** 163

Guide to the aquatic heteroptera of Singapore and Peninsular Malaysia: VII. family Helotephidae. **Herbert Zettel, Miroslav Papáček and Damir Kovac** 171

Taxonomic and functional diversity of ants (Hymenoptera: Formicidae) in an upper hill dipterocarp forest in Peninsular Malaysia. **Nur-Zati A. Mustafa, Hannah M. W. Salim, Christine Fletcher, Abd Rahman Kassim and Matthew D. Potts** 181

Crossocheilus elegans, a new species of fish from northern Borneo (Teleostei: Cyprinidae). **Maurice Kottelat and Tan Heok Hui** 195

Nemacheilus paucimaculatus, a new species of loach from the southern Malay Peninsula (Teleostei: Nemacheilidae). **Jörg Bohlen and Vendula Šlechtová** 201

The Raffles Bulletin of Zoology | R B Z | rmbr.nus.edu.sg/rbz/

The Raffles Bulletin of Zoology (RBZ) is an online, peer-reviewed journal which publishes high quality papers in Taxonomy, Systematics, Ecology and Conservation Biology of animals from Southeast Asia and its adjacent areas. The Journal aims to build up quality information on the “animal diversity” of Southeast Asia in particular. Papers from outside the stated geographic range that deal with material deposited in the Zoological Reference Collection (ZRC) of the Raffles Museum of Biodiversity Research (RMBR), National University of Singapore (NUS) will also be published. Both descriptive and experimental papers will be considered. Single species descriptions and ecosystem studies will be considered for publication. Papers outside the stated policy will be accepted at the discretion of the Editors/Editorial Board.

EDITORIAL BOARD

Todd** (NUS, Singapore) • **Tran Anh Duc** (Hanoi University of Science, Vietnam) • **Darren C. J. Yeo** (NUS, Singapore)

COPY EDITOR: **Hazelina Yeo** (NUS, Singapore)

EDITORIAL ADMINISTRATOR: **Greasim Simon** (NUS, Singapore)

WEBMASTER: **Chua Keng Soon** (NUS, Singapore)

PUBLICATION DETAILS

The **Raffles Bulletin of Zoology** will consist of a single volume (two issues) each year, continuing the sequence of its two predecessors, **Bulletin of the Raffles Museum** (1928–1960) and **Bulletin of the National Museum of Singapore** (1961–1970). A separately numbered supplement series will be published as and when manuscripts and funding permit. About fourteen hard-copies of the Journal will be deposited in major publicly accessible libraries as to satisfy Article 8.6 of the International Code of Zoological Nomenclature (1999; Fourth Edition) so that all new names published in the RBZ are considered to be published and available.

COPYRIGHT AND EXCHANGES

All articles published by the RBZ may be downloaded from <http://rmbr.nus.edu.sg/rbz/biblio/> for research purposes. A condition of publication is that authors assign publication rights to **The Raffles Bulletin of Zoology**. After publication, authors may use the article without prior permission from the Journal provided acknowledgment is given to the Journal as the original source of publication. It is the responsibility of authors to obtain permission to use copyright material from other sources. For permissions and copyright matters, please contact the Managing Editor at heokhui@nus.edu.sg. For queries on the purchase of back issues or journal exchanges, please contact the Editorial Administrator, Ms. Greasim Simon at dbsgs@nus.edu.sg.

INSTRUCTIONS TO AUTHORS

Submission of manuscripts. – All manuscripts are to be submitted via email to the Managing Editor, Dr. Tan Heok Hui (heokhui@nus.edu.sg). Hard copy manuscript submissions will not be considered. Where possible, authors are encouraged to deposit representative material from papers published in the RBZ with the Zoological Reference Collection (ZRC) of the Raffles Museum of Biodiversity Research (RMBR), National University of Singapore (NUS). A recommended list of up to three potential reviewers would be greatly appreciated.

Presentation. – Documents produced with Microsoft® Word (.doc) are preferred. Text must be double-spaced throughout. The title page should contain the full title of the paper, the author's name and professional affiliation, email address and a short running title of not more than 35 characters. All numbers (except in *Material* section in taxonomic papers) less than 10 should be spelt in full. Italicize all scientific names. All scientific names used or proposed must be in accordance with the Fourth Edition of the International Commission of Zoological Nomenclature (1999). Telegraphic style is recommended for descriptions, diagnoses and keys in taxonomic papers. The holotype must be clearly designated and depositories for all type specimens must be clearly stated, including catalogue numbers if possible. The origins of all new names (Etymology) must be briefly explained. For new genera, the gender must be stated. Descriptions of new taxa by one author in a paper under another's name are strongly discouraged (e.g. Lim, in Tan & Ong, 1986). Synonyms must be cited in the short form (taxon, author, year, page), with full references at the end of the paper in the LITERATURE CITED. Please refer to the most recent issue of the Journal for the detailed format.

Digital images. – For initial submission, greyscale, colour photographic images or line drawings are to be submitted in JPEG format (.jpg) embedded in Microsoft® Word documents. Authors should arrange their line drawings in such a way as to fit into an A4-sized page (210 × 297 mm).

Review. – All manuscripts will be sent to an Associate Editor who will have them reviewed by two referees. The Associate Editor decides on provisional acceptance or rejection based on comments submitted by the referees. After acceptance, the manuscript must be revised and emailed to the Associate Editor for verification.

Abstract. – All articles should be accompanied by an abstract of not more than 300 words, clearly stating the results and conclusions of the paper. Key words (four to eight words) should be listed following the abstract.

Literature cited. – All references cited in the text, including taxonomic authorities for any scientific names, should be included in the LITERATURE CITED section. References are to be cited in the text by the author's family name or surname and year of publication, e.g. (Chan, 1985). For two authors, both names should be cited, e.g. (Polhemus & Polhemus, 1988). For three or more authors, cite only the first name followed by “et al.”, e.g. (Harrison et al., 1950). Citations are listed at the end of the manuscript in alphabetical and chronological order. Journal references should include year of publication, title of paper, **full title of journal**, volume and issue number, and page numbers. Book references should include author's family name and initials, year of publication, title of book chapter, editor (if any), title of book, publisher, city of publication and the page numbers of the chapter or the book. For example:

King, B., M. Woodcock & E. C. Dickinson, 1975. *A Field Guide to the Birds of South-East Asia*. Collins, London. 480 pp.

Murphy, D. H., 1990. The natural history of insect herbivory on mangrove trees in and near Singapore. *Raffles Bulletin of Zoology*, **38**(2): 119–204.

Nakasone, Y. & M. Agena, 1984. Role of crabs as degrader of mangrove litters in the Okinawan mangals, and food habits of some estuarine fishes. In: Ikebara, S. & N. Ikebara (eds.), *Ecology and Physiology of the Mangrove Ecosystem*. College of Science, University of Ryukyus. Pp. 153–167.

Tables. – All tables must have their own legends and be self-explanatory. Tables must be typed separately with double spacing, and formatted with no vertical lines and minimal horizontal lines.

Page and colour page charges. – There are no page charges. Authors with papers longer than 20 pages are advised to write to the Managing Editor before submission. There will be a charge of S\$200 for each colour plate.

Proofs and reprints. – Proofs in PDF format are emailed to authors for correction and approval, together with the copyright transfer and reprint order forms. Reprint orders are taken with returned proofs. Authors will receive an electronic reprint in PDF format for personal use (note that copyright remains with the publisher). Authors may purchase hard copy reprints at a cost of S\$1.00 per page without colour plates, and S\$2.00 for a page with colour plates.

Detailed instructions to authors are available at <http://rmbr.nus.edu.sg/rbz/author.htm>
